Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant requested clarification of the election of species. Examiner indicated that the election was before or after the webs were joined together rather than before or after the corrugating device.(Figure 1 versus Figure 7) The claims currently only require two webs, which are joined together in the corrugating device 10. If the two webs of claim 10 are the two liner boards then the claim is missing an essential component, namely the corrugated medium. If the two webs are the corrugated web and a liner board, the drawings do not show this combination. .
